HOT-FORMING  
TECHNOLOGY**

## **HOT-FORMED TOYOTA LC 200**

Jankel brings to the market the only Hot-Formed Toyota Land Cruiser 200. This advanced method of protection makes the Jankel TLC 200 the class-leading and cost effective solution, rapidly being chosen by military, NGO and government organisations across the world

Jankel is the only company to offer the fully Hot-Formed 200 Toyota Land Cruiser, delivering:

- Lighter armour design throughout the vehicle with superior structural integrity offering an increased payload
- High rate of production with guaranteed consistency in manufacture and fast delivery times
- Highest levels of live-fire and blast certification available
- Designed for systems integration and flexibility for custom fits
- Unmatched value through a better protected, lighter vehicle at a competitive price
- Support packages which go further in regards to customer support in the most hostile of environments than any other armourer.
