

TROOP TRANSPORT SEAT

A LIGHTWEIGHT AND VERSATILE TROOP SEATING SYSTEM

The Troop Transport Seat is lightweight and versatile. Designed for integration into both enclosed and open tactical military platforms, the seat demonstrates Jankel's knowledge and innovation to deliver optimum comfort and safety required by today's militaries.

Key Benefits

- Designed to maximise comfort and minimise weight (11kg)
- Configured for ease of mounting in all travel directions
- Configurable with adjustable seat stand for integration into platforms via aircraft rails
- Tested to ZMK-32 side mounted seating requirements
- Designed to accommodate 5th - 95th percentile occupants
- Incorporates Anti-Vibration (AV) mounts for increased ride comfort
- Modular in design for ease of integration.

Optional Features

- Seat pan storage compartment
- Integrated weapon mount
- Camelbak comfort feature
- Material colour change (Customer specified).

Key Features and Functionality

- Flexible mounting - wall and floor
- Spring loaded, flip up seat base
- Height adjustment via supporting frame
- ECE compliant 4 point harness
- Side and head bolster support
- Quick mounting and release mechanisms.

Designed in Accordance With:

- Human Factors MIL-STD-1472G
- Environmental IAW MIL-STD-810G, DEF STAN 00-35
- Side mount test - ZMK-32
- Automotive Crash FMVSS 207, 209 & 210, ECE R14 & R17
- Flammability FMVSS 302
- STANAG 2895.
